## #ISP60years WEBINAR SERIES Choosing journals - How to make a wise choice

The aim of this webinar is to give you the hard facts on how to make a well-informed choice in choosing a journal when you want to be published.

We will also talk about how to eliminate the risk of sending your manuscript to one of the rotten apples in the publishing industry (predatory publishers).

The webinar will take you through a number of resources and tools and we will discuss and learn how to evaluate a journal in terms of:

- Topic, document type and study design
- Coverage in major bibliographic databases
- Impact factors or other metrics on the journal level
- Open Access options
- Journal and research funders' demands in relation to Open Access and research data
- Peer-review
- Turn-around-time
- Acceptance Rate of the journal
